Java

```java
class Solution {
    public int shortestPathAllKeys(String[] grid) {

    }
}
```

JavaScript

```javascript
class Solution {
    public int shortestPathAllKeys(String[] grid) {

    }
}
```

C++

```cpp
class Solution {
public:
    int shortestPathAllKeys(vector<string>& grid) {

    }
};
```

C#

```csharp
public class Solution {
    public int ShortestPathAllKeys(string[] grid) {

    }
}
```
